THE ORDER OF EVENTS

1 **Call and score**
No commitment either way.

2 **Written scope**
The Pilot Schedule: people, site, devices, capabilities, baseline, measures. Nothing is installed before it exists.

3 **You sign**
The participation agreement. This alone does not start billing or hold a place.

4 **Day 1**
The pilot starts. First invoice: $1 per device per month for 28 days, in advance. No card needed to start.

5 **First invoice paid**
Your design partner place (one of 100) is claimed, numbered by payment date.

6 **Days 29 and 57**
The second and third pilot invoices.

7 **Week 12 decision**
Held in week 11: continue, extend or offboard.

8 **Day 85**
If you continue, the 50 percent partner price begins. Your first invoice on it may earn an equity place if you are among the first nine.

IN PLAIN WORDS

What the participation agreement says.

Term	12 weeks (84 days) from your start date. Either side may end it at any time, with no fault and no penalty.
Price	$1 per device per month during the pilot, in three invoices billed in advance every 28 days, plus applicable sales tax. Each invoice counts the devices in your Pilot Schedule or the devices enrolled on its issue date, whichever is higher. Then 50 percent off the standard rate of your tier for as long as you stay a paying customer (RMM 1.0: $2.50 instead of $5). Your price does not rise when list prices change.
Automatic change on day 85	Unless you cancel or agree an extension, your subscription moves to the partner price on day 85. We remind you in the week 11 decision session.
Your place	One of up to 100 paying design partner places, claimed by this signed agreement plus a paid first invoice. Kept while you keep paying.
Equity	Nine places in total, ever, for the first nine partners who finish the pilot and pay their first post-pilot invoice, counted by that payment date. Granted only by a separate written agreement with the Delaware corporation once it exists.
Authority	You confirm you may install agents on, and monitor, the devices in scope, including any client consent that requires.
Scope and status	Only the devices and capabilities in the Pilot Schedule, each with its current limit. No feature, date or result is promised. AI features are not part of a pilot.
Support	8AM - 6PM CST, Monday to Friday. Every request, including a critical alert, is acknowledged within four support hours and answered within one business day. We do not watch your alerts, and no resolution time is guaranteed.
Publicity	None without your separate written approval for each use of your name, logo, quote or results.
Leaving	Access revoked at once. Export in five business days. Active data deleted in 30 days, backups in 90.
Not included	No exclusivity, reseller right or white label. Texas law, as in the Product Subscription Terms.

> Drafted by the company with AI assistance. Not legal advice and not reviewed by a licensed attorney. Please have your own lawyer read the agreement before you sign.
